About Us

At ConstructAI Hub, we are on a mission to revolutionize recruitment in the UK construction and civil engineering industries. Founded by **Square Centimeter Ltd**, ConstructAI Hub was born out of a desire to address the critical skills shortage and inefficiencies in traditional hiring processes that have long plagued the sector.

The UK construction industry is facing an unprecedented challenge: over **217,000 new workers will be needed by 2025 to meet growing demand (Source: CITB Industry Report)**. At the same time, employers struggle to find qualified professionals, while job seekers face barriers in showcasing their skills effectively.

ConstructAI Hub, powered by **Square Centimeter Ltd**, bridges this gap by leveraging **artificial intelligence (AI)** to streamline recruitment, connect skilled professionals with top employers, and empower both parties with innovative tools designed specifically for the construction sector.

Our Mission

"To empower construction professionals and businesses with an AI-powered job portal that addresses workforce gaps, reduces hiring inefficiencies, and improves talent acquisition in the UK construction sector."

Our Vision

By 2027, we aim to be the UK's leading AI-driven recruitment platform, bridging workforce gaps and ensuring every construction professional finds the right job.

Why Choose US?

Our Digital Skill Badges help verify qualifications like CSCS cards and NVQs, ensuring candidates meet industry standards.

AI-Powered Resume Matching

Instantly find the perfect candidate or job.

Digital Skill Badges

Verify and showcase qualifications like CSCS cards and NVQs.

Video Resumes

Create dynamic presentations of your expertise.

Real-Time Job Alerts

Stay updated with the latest opportunities.

Our AI Features

AI Resume Finder (For Employers)

Instantly scan and match Resumes with job requirements, helping employers connect with skilled professionals.

Resume Analyser (For Job Seekers & For Employers)

Our AI scans and optimizes Resumes, helping candidates align their profiles with industry expectations.

Create JD With AI (For Employers)

Generates CDM-compliant job descriptions, emphasising essential skills like health & safety training and site management.

Case Studies

Upskilling for Career Growth

Name: Ahmed Khan

Occupation: General Labourer – Certified Site Supervisor

Location: London, UK

Challenge

Ahmed had been working as a general laborer for over five years but struggled to find higher-paying supervisory roles due to a lack of formal certifications.

Solution

Through ConstructAI, Ahmed was able to access AI-powered job recommendations and skill verification programs. He enrolled in an accredited site supervisor training course, which was recommended through the platform's upskilling partnerships.

Results

- ✓ Earned a **CSCS Site Supervisor Certification**
- ✓ Got hired as a **Site Supervisor** within two months.
- ✓ Increased his earnings by **35%**

Thanks to ConstructAI, I was able to move up in my career. The platform not only helped me find better jobs but also provided training recommendations that led me to a higher-paying role. The AI job matching system connected me directly with employers looking for certified supervisors, and within two months, I was managing my own team!

Overcoming Post-Brexit Job Market Challenges

Name: Tomasz Lewandowski

Occupation: Skilled Plasterer

Location: Glasgow, UK

Challenge

As an EU-born construction worker, Tomasz faced difficulties securing stable employment after Brexit. With increased competition and fewer available roles, he found it challenging to connect with employers.

Solution

Tomasz signed up on ConstructAI and used its **Resume enhancement** and **AI-powered job-matching** features to increase his job visibility. He also utilized the **digital skill badge** system to verify his qualifications, making his profile more attractive to employers.

Results

- ✓ Received **five job offers** within the first **three weeks**
- ✓ Secured a **full-time plastering role** with a UK-based company
- ✓ Reduced time between contracts from **months to just a few days**

ConstructAI helped me get back into stable employment quickly. Before, I would wait weeks for agencies to respond, but with this platform, I had multiple job offers within days. The AI-matching system saved me time, and the verified skill badge reassured employers about my expertise. I now have a steady job, and I recommend ConstructAI to anyone struggling to find work in construction!

Female Architect Construction

Name: Sarah Williams

Occupation: Architect

Location: London, UK

Challenge

As a female architect in a male-dominated industry, Sarah found it difficult to get recognized for senior roles. Many traditional job platforms did not prioritize diversity hiring, and she often faced long hiring processes with little feedback.

Solution

Sarah joined **ConstructAI**, where the **AI-driven job matching system** connected her with inclusive employers actively seeking diverse talent. She used the **video Resume** feature to showcase her portfolio, and the **AI-enhanced Resume builder** helped tailor her applications for senior roles.

Results

- ✓ Secured a **senior architect role** at a leading construction firm within **six weeks**
- ✓ oined a **diversity and inclusion program** through ConstructAI's industry partnerships
- ✓ Increased her **salary by 40%** compared to her previous role

ConstructAI gave me access to job opportunities that I never saw on traditional platforms. The AI-driven system matched me with companies committed to diversity, and the video resume feature helped me highlight my skills beyond just a resume. Within weeks, I landed a senior position at a progressive firm that values female architects. This platform is a game-changer for women in construction!

Our Commitment to Diversity

At ConstructAI, we believe in promoting inclusivity in the construction sector. Our partnerships with diversity-focused organizations and employers ensure that underrepresented groups receive equal career opportunities.
